MORE DATARECOVERY LLC - COMPANY OVERVIEW

MORE Datarecovery LLC is a pioneer in the field of **Professional Data Recovery** in the Middle East, with more than 20 years of market leadership regarding technical excellence and clientele.

Established in the year 2001, we at present deal with thousands of customers every year, many of them Fortune 100 ranked conglomerates and regional leaders who have achieved substantial business gains by **minimizing downtime** through long-standing relationships with us.

Ensuring Business Continuity to our customers in the event of a storage device failure or any other data inaccessibility, is our primary concern. Be it a failed Hard Disk, SSD, RAID configured server, NAS/ SAN/ DAS device, or a complex virtualized environment, our technical expertise and years of experience ensure that the client is **back in business** with the lowest possible downtime.

Besides our acclaimed In-lab data recovery, we also offer **Onsite Data Recovery** for our esteemed clients. Trusted by Government agencies, banking sector, oil and gas, airlines, and most other industry verticals, our **data security** and **non-disclosure** policies are top-notch and compliant to industry standards in handling third party data.

DATA LOSS CAN HAPPEN TO ANYONE. IF THE DATA COSTS YOU YOUR BUSINESS, WHY TAKE RISKS?

DATA LOSS?
- Downtime!
- Business suffers!
